- **A302-18—Kenneth J. Ryan, DDS Memorial Seminar**—Uncommon Common Sense: What YOU Need to Know NOW About the Latest in Restorative Dentistry and Dental Materials

Once registration is complete, you will immediately receive a course confirmation via email. If you do not receive confirmation, or need assistance, please call 734-763-5070 or 734-763-5171.

Parking

Parking and shuttle bus service to the Horace H. Rackham School of Graduate Studies Auditorium will be available from the southeast corner of the Briarwood Mall parking lot. A map and time schedule will be provided with your confirmation letter.

Cancellation policy

A nonrefundable \$95 registration is required for each attendee.

Program check-in times

Check-in begins at 8 a.m. The seminar begins promptly at 9 a.m. and ends at approximately 4 p.m. Lunch will be provided. Your confirmation email will contain details regarding lunch. Once the course begins, your seat will be held for a limited time only. If circumstances dictate a late arrival, please call the UM Office of Continuing Education at 734-763-5070 or 734-763-5171.

Course credit

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between the University of Michigan and the Delta Dental Foundation.

The University of Michigan designates this activity for six continuing education credits.

About the Kenneth J. Ryan, DDS Memorial Seminar

This seminar is dedicated to the memory of Dr. Kenneth J. Ryan, a general practitioner from Flint who was a visionary in the field of dental prepayment. He was a founder and the first president of the Delta Dental Plans Association, the national coordinating organization for the country's Delta Dental plans. Dr. Ryan died in 1993.

About the Delta Dental Foundation

The Delta Dental Foundation is a nonprofit, charitable organization established in 1980, which serves as the philanthropic arm of Delta Dental of Michigan, Ohio, Indiana, and North Carolina. The foundation is dedicated to improving the oral health of the public and advancing dental science through education and research. For more information, visit www.deltadentalmi.com/ddf.

Seminar topics are presented in the interest of furthering dental education. However, it should not be construed that all procedures discussed and/or demonstrated in these seminars are covered under current Delta Dental program contracts.

Uncommon Common Sense:

What YOU Need to Know NOW About the Latest in Restorative Dentistry and Dental Materials

Horace H. Rackham School of Graduate Studies Auditorium at the University of Michigan, Ann Arbor, Michigan

About the course

Long held beliefs may not always be accurate, and it is difficult to decide which to implement. With the aging demographics of our population, it is important to use age-appropriate restorative materials. Composites with optimized nano-filler particles and non-bis-GMA resins decrease wear, polymerization shrinkage stress and improve optical qualities. Glass ionomer restorative materials can serve as a therapeutic restorative material, reducing postoperative sensitivity and potential recurrent decay. Predictable class II restorations require specific skills and techniques to achieve reliable success. Patient communication is vital to understanding of treatment options. Selecting and implementing the latest all-ceramic crowns requires knowledge regarding the patient's esthetic expectations, tooth preparation, laboratory fabrication and cementation protocols. These subjects and some you may have never heard about will be presented. This course is an excellent way to update your skills using the latest restorative materials with a common sense approach.

Wednesday, January 10, 2018

Registration: 8 to 9 a.m.

Course Time: 9 a.m. to 4 p.m.

CDE Credits: 6 hours

Fee: \$95 nonrefundable course fee

Course objectives

- Review the development of dentin bonding agents and understand the challenges including postoperative sensitivity, MMPs, cathepsins and hydrolyzation.
- Become familiar with the latest universal dentin bonding agents.
- Review the improvements in composite restorative materials including pre-polymerized fillers, glass ionomer fillers, spherical fillers, nanofillers and new resin polymers.
- Understand the mechanisms that allow the use of new bulk fill composites and non-bis-GMA resins.
- Understand how and when to use today's bioactive glass ionomer materials.
- Update your pulp capping protocols.
- Become acquainted with new innovative products that improve patient care, such as anesthesia buffering solutions and sonically activated composite systems.
- Learn how to use dental photography and patient communication tools to educate your patients.
- Review the latest all-ceramic crowns, their indications and cementation protocols.

About the speaker

Dr. Daniel Ward

Dr. Daniel H. Ward was an Assistant Clinical Professor at The Ohio State University for 13 years and has been in private practice in Columbus, Ohio, for 37 years. He served as lecturer and chief examiner of the Post-Graduate Program in Esthetic Dentistry at the University of Minnesota, SUNY Buffalo, UMKC, and the University of Florida. He is a Fellow in the American College of Dentists, Fellow in the International College of Dentists, Fellow of the American Society for Dental Aesthetics, Fellow in the Pierre Fauchard Academy, and a Fellow in the Academy of General Dentistry. He is an Associate Member of the Academy of Esthetic Dentistry.

Dr. Ward has lectured throughout the world. He was invited to present to the annual meetings of the American Dental Association, Academy of General Dentistry, The Chicago Midwinter Yankee Meeting, the Greater New York Dental Meeting, the California Dental Association, the Ohio Dental Association, the American Society for Dental Aesthetics, the American Academy of Cosmetic Dentistry, the
